AUTHOR INDEX

VOLUME 32 NUMBERS 1–12

A

Aalto-Setälä, Katriina, Jorma Viikari, Hans K. Åkerblom, Vesa Kuusela, and **Kimmo Kontula.** DNA polymorphisms of the apolipoprotein B and A-I/C-III genes are associated with variations of serum low density lipoprotein cholesterol level in childhood 1477

Aggarwal, Suresht K. See *Batta et al.* 977

Ailhaud, Gérard. See *Amri et al.* 1449

——. See *Amri, Ailhaud, and Grimaldi* 1457

——. See *Saulnier-Blache et al.* 1489

Akanuma, Yasuo. See *Shimano et al.* 763

Åkerblom, Hans K. See *Aalto-Setälä et al.* 1477

Akeson, Ann L., Kendra Schroeder, Connie Woods, Christopher J. Schmidt, and **Winton D. Jones.** Suppression of interleukin-1β and LDL scavenger receptor expression in macrophages by a selective protein kinase C inhibitor 1699

Akimoto, Kengo. See *Hirose et al.* 629

Akoh, Casimir C. See *Chapkin, Akoh, and Miller* 1205

Alaupovic, P., C. Knight-Gibson, C-S. Wang, D. Downs, E. Koren, H. B. Brewer, Jr., and **R. E. Gregg.** Isolation and characterization of an apoA-II-containing lipoprotein (LP-A-II:B complex) from plasma from very low density lipoproteins of patients with Tangier disease and type V hyperlipoproteinemia 9

——. See *Bekaert et al.* 1587

Albers, John J. See *Cheung et al.* 383

Albertazzi, L. See *Tarugi et al.* 1675

Albright, Ella. See *Field et al.* 1811

Allan, Charles M., Tim Tetaz, and **Noel H. Fidge.** Epitope mapping of apolipoprotein A-I using endoproteinase cleavage and monoclonal antibodies in an enzyme-linked immunosorbent assay 595

Allegretto, N. See *Grove et al.* 1889

Alvarez, Idania M. See *Harwood et al.* 1237

Amann, Joseph M. See *Patterson et al.* 1063

Ameis, Detlev. See *Reue et al.* 267

Amri, Ez-Zoubir, Gérard Ailhaud, and **Paul Grimaldi.** Regulation of adipose cell differentiation. II. Kinetics of induction of the aP2 gene by fatty acids and modulation by dexamethasone 1457

——, **Bénédicte Bertrand, Gérard Ailhaud,** and **Paul Grimaldi.** Regulation of adipose cell differentiation. I. Fatty acids are inducers of the aP2 gene expression 1449

Anantharamaiah, G. M. See *Blackburn et al.* 1911

Anderson, Robert E. See *Stinson, Wiegand, and Anderson* 2009

Andersson, Yvonne, Lars Thelander, and **Gunilla Bengtsson-Olivecrona.** Rat apolipoprotein C-II lacks to conserved site for proteolytic cleavage of the pro-form 1805

Angelin, Bo. See *Elmberger et al.* 935

——. See *Reihnér et al.* 469

——. See *Ståhlberg et al.* 1409

Anthonsen, Thorleif. See *Bergheim, Malterud, and Anthonsen* 877

Antonaccio, M. See *Grove et al.* 1889

Antoniutti, Michele. See *Muraca et al.* 371

Applegate, Kenneth R., and **John A. Glomset.** Effect of acyl chain unsaturation on the conformation of model diacylglycerols: a computer modeling study 1635

——, and **John A. Glomset.** Effect of acyl chain unsaturation on the packing of model diacylglycerols in simulated monolayers 1645

Arakawa, Kikuo. See *Takada et al.* 1275

Argyres, Michael. See *Levy-Wilson et al.* 137

Armstrong, V. W. See *Helmhold et al.* 1919

Arner, Peter, Hans Lithell, Hans Wahrenberg, and **Mikael Brönnegård.** Expression of lipoprotein lipase in different human subcutaneous adipose tissue regions 423

Asai, Kanichi. See *Kuzuya et al.* 197

Asins, Guillermina, Dolors Serra, and **Fausto G. Hegardt.** Isolation and partial characterization of a protein with HMG-CoA reductase phosphatase activity associated with rat liver microsomal membranes 1391

Assmann, Gerd. See *Jonas et al.* 97

——. See *von Eckardstein et al.* 1465

Atsma, Douwe E., Herman Jan M. Kempen, Willem Nieuwenhuizen, Ferdinand M. van 't Hooft, and **Ernest K. J. Pauwels.** Partial characterization of low density lipoprotein preparations isolated from fresh and frozen plasma after radiolabeling by seven different methods 173

Aviram, Michael. See *Fuhrman, Brook, and Aviram* 1113

Axelson, Magnus. Occurrence of isomeric dehydrocholesterols in human plasma 1441

B

Baer, Alan N., Patrick B. Costello, and **Floyd A. Green.** Stereospecificity of the products of the fatty acid oxygenases derived from psoriatic scales 341

Baert, Johan. See *Vanloo et al.* 1253

Bagdade, John D. See *Subbaiah, Norum, and Bagdade* 1601

Baginski, Eugene S. See *Ichimiya et al.* 829

Baker, Nome. See *Barrett, Baker, and Nestel* 743

Baker, Richard. See *Belcher et al.* 359

Banfield, David K. See *Main et al.* 183

Banka, Carole L., Audrey S. Black, Cheryl A. Dyer, and **Linda K. Curtiss.** THP-1 cells form foam cells in response to coculture with lipoproteins but not platelets 35

Bard, Jean-Marie. See *Leitersdorf et al.* 1513

Barrett, P. Hugh R., Nome Baker, and **Paul J. Nestel.** Model development to describe the heterogeneous kinetics of apolipoprotein B and triglyceride in hypertriglyceridemic subjects 743

——. See *Parhofer et al.* 1311

Barter, Philip J. See *Warren et al.* 1333

Bartlett, Kim. See *Hovik et al.* 993

Basheeruddin, Khaja. See *Mazzone and Basheeruddin* 507

Batta, Ashok K., Suresht K. Aggarwal, Gerald Salen, and **Sarah Shefer.** Selective reductive of oxo bile acids: synthesis of 3β-, 7β-, and 12β-hydroxy bile acids 977
Bauchart, Dominique. See *Laplaud et al.* 1429
Baumann, Dirk. See *Tang et al.* 1571
Baumstark, M. W. See *Luley, Baumstark, and Weiland* 880
Beatini, Nanda. See *Tabas et al.* 1689
Beaubatie, Laurence. See *Laplaud et al.* 1429
Bekaert, E. D., P. Alaupovic, C. S. Knight-Gibson, M. J. Laux, J. M. Pelachyk, and **R. A. Norum.** Characterization of apoA- and apoB-containing lipoprotein particles in a variant of familial apoA-I deficiency with planar xanthomas: the metabolic significance of LP-A-II particles 1587
Belcher, John D., Jack O. Egan, George Bridgman, Richard Baker, and **John M. Flack.** A micro-enzymatic method to measure cholesterol and triglyceride in lipoprotein subfractions separated by density gradient ultracentrifugation from 200 microliters of plasma or serum 359
Bengtsson-Olivecrona, Gunilla. See *Andersson, Thelander, and Bengtsson-Olivecrona* 1805
———. See *Camps et al.* 1877
Benninghoven, Alfred. See *von Eckardstein et al.* 1465
Bergheim, Synnøve, Karl Egil Malterud, and **Thorleif Anthonsen.** Preparative scale separation of neutral lipids and phospholipids by centrifugally accelerated thin-layer chromatography 877
Berglund, Lars. See *Elmberger et al.* 935
———. See *Humble and Berglund* 1869
Berliner, Judith A. See *Kim et al.* 1125
———. See *Sevanian, Berliner, and Peterson* 147
Bertrand, Bénédicte. See *Amri et al.* 1449
Bessesen, Daniel H. See *Jensen et al.* 733
Beumers, Brigitte. See *Czubayko et al.* 1861
Bier, Dennis M. See *Parhofer et al.* 1311
Bigge, J. See *Helmhold et al.* 1919
Bisgaier, Charles L., Mary V. Siebenkas, Maryanne L. Brown, Akihiro Inazu, Junji Koizumi, Hiroshi Mabuchi, and **Alan R. Tall.** Familial cholesteryl ester transfer protein deficiency is associated with triglyceride-rich low density lipoproteins containing cholesteryl esters of probable intracellular origin 21
———. See *Seishima et al.* 941
Björkhem, Ingemar. See *Hylemon et al.* 89
———. See *Reihnér et al.* 469
Björnheden, Tom. See *Wiklund et al.* 55
Black, Audrey S. See *Banka et al.* 35
Blackburn, Warren D., Jr., Jan G. Dohlman, Y. V. Venkatachalapathi, Dennis J. Pillion, William J. Koopman, Jere P. Segrest, and **G. M. Anantharamaiah.** Apolipoprotein A-I decreases neutrophil degranulation and superoxide production 1911
Blackhart, Brian D. See *Levy-Wilson et al.* 137
Blanche, Patricia J. See *Ishida et al.* 559
———. See *Musliner et al.* 917
Blaner, William S. See *Rajan et al.* 1195
Bocan, Thomas M. A. See *Kieft, Bocan, and Krause* 859
Bojanovski, D. See *Eggerman et al.* 821
Bondjers, Göran. See *Camejo et al.* 1983
———. See *Wiklund et al.* 55
Bonet, Bartolomé. See *Lasunción, Bonet, and Knopp* 1073
Borgström, Bengt. See *Reue et al.* 267
Bosello, O. See *Cominacini et al.* 349
Bouchard, C. See *Mauriège et al.* 1625
Boyles, Janet K. See *Friedman et al.* 107
Brady, Sandra. See *Jäckle et al.* 485
Brasitus, Thomas A. See *Tang et al.* 1025
Brasseur, Robert. See *Vanloo et al.* 1253
Brecher, Peter. See *Lenich et al.* 431
Brenner, Rodolfo R. See *Soulages and Brenner* 407
Breslow, Jan L. See *Huang, et al.* 1341
Brewer, H. Bryan, Jr. See *Alaupovic et al.* 9
———. See *Eggerman et al.* 821
———. See *Rader et al.* 1849
Bridgman, George. See *Belcher et al.* 359
Brigot, Bernadette L. J. See *Kawooya et al.* 1781
Brodal, Björn. See *Hovik et al.* 993
Brönnegård, Mikael. See *Arner et al.* 423
Brook, Gerald J. See *Fuhrman, Brook, and Aviram* 1113
Brooks, Alan R. See *Levy-Wilson et al.* 137
Brown, B. Greg. See *Cheung et al.* 383
Brown, Maryanne L. See *Bisgaier et al.* 21
Brown, Spencer A., Joel Morrisett, Josef R. Patsch, Rebecca Reeves, Antonio M. Gotto, Jr., and **Wolfgang Patsch.** Influence of short term dietary cholesterol and fat on human plasma Lp[a] and LDL levels 1281
Burkey, Bryan F., Harshini V. deSilva, and **Judith A. K. Harmony.** Intracellular processing of apolipoprotein J precursor to the mature heterodimer 1039
Burns, C. Patrick, and **Brett A. Wagner.** Heightened susceptibility of fish oil polyunsaturate-enriched neoplastic cells to ethane generation during lipid peroxidation 79
Busch, N., N. Matiuck, S. Sahlin, S. P. Pillay, and **R. Thomas Holzbach.** Inhibition and promotion of cholesterol crystallization by protein fractions from normal human gallbladder bile 695
Buscher, H-P. See *Schneider et al.* 1755
———. See *Schramm et al.* 1769
Byers, David M. See *Cook et al.* 1265

C

Calandra, S. See *Tarugi et al.* 1675
Camejo, Germán, Eva Hurt-Camejo, Birgitta Rosengren, Olov Wiklund, Flor López, and **Göran Bondjers.** Modification of copper-catalyzed oxidation of low density lipoprotein by proteoglycans and glycosaminoglycans 1983
———. See *Wiklund et al.* 55
Camps, L., M. Reina, M. Llobera, G. Bengtsson-Olivecrona, and **S. Vilaró.** Lipoprotein lipase in lungs, spleen, and liver: synthesis and distribution 1877
Caprani, A. See *Vedie et al.* 1359
Carey, K. Dee. See *Kushwaha et al.* 1929
Carey, Martin C. See *Cohen and Carey* 1291
———. See *Donovan, Timofeyeva, and Carey* 1501
Castle, Christine K. Michael E. Pape, Keith R. Marotti, and **George W. Melchior.** Secretion of pre-beta-migrating apoA-I by cynomolgus monkey hepatocytes in culture 439
Castro, Graciela. See *Rader et al.* 1849
Cathcart, Martha K., Amy K. McNally, and **Guy M. Chisolm.** Lipoxygenase-mediated transformation of human low density lipoprotein to an oxidized and cytotoxic complex 63
Caulfield, John P. See *Furlong and Caulfield* 703
Cenedella, Richard J. See *Fleschner and Cenedella* 45
Chang, Frederic C. See *Iida et al.* 649
Chapkin, Robert S., Casimir C. Akoh, and **Craig C. Miller.** Influence of dietary n–3 fatty acids on macrophage glycerophospholipid molecular species and peptidoleukotriene synthesis 1205
Chapman, M. John. See *Laplaud et al.* 1429
———. See *Nigon et al.* 1741
Chen, Li-Ling. See *Tabas et al.* 1689

Cheung, Marian C., B. Greg Brown, Anitra C. Wolf, and **John J. Albers.** Altered particle size distribution of apolipoprotein A-I-containing lipoproteins in subjects with coronary artery disease 383
Chien, Jaw-Long. See *Dasgupta et al.* 499
Chino, Haruo. See *Nagao and Chino* 417
Chisolm, Guy M. See *Cathcart, McNally, and Chisolm* 63
Chobanian, Aram V. See *Lenich et al.* 431
Clader, John W. See *Tabas et al.* 1689
Clarke, Lucinda L. See *Wong et al.* 1049
Clayton, Peter T. See *Ichimiya et al.* 829
Cobb, Margaret. See *Nguyen et al.* 1941
Cohen, Bertram I. See *Yoshii et al.* 1729
Cohen, David E., and **Martin C. Carey.** Acyl chain unsaturation modulates distribution of lecithin molecular species between mixed micelles and vesicles in model bile. Implications for particle structure and metastable cholesterol solubilities 1291
Cominacini, L., U. Garbin, A. Davoli, R. Micciolo, O. Bosello, G. Gaviraghi, L. A. Scuro, and **A. M. Pastorino.** A simple test for predisposition to LDL oxidation based on the fluorescence development during copper-catalyzed oxidative modification 349
Cook, Gary L. See *Patterson et al.* 1063
Cook, Harold W., David M. Byers, Frederick B. St.C. Palmer, Matthew W. Spence, Henry Rakoff, Sandra M. Duval, and **Edward A. Emken.** Alternate pathways in the desaturation and chain elongation of linolenic acid, 18:3(n-3), in cultured glioma cells 1265
Cooper, Allen D. See *Fong, Fong, and Cooper* 1899
Costello, Patrick B. See *Baer, Costello, and Green* 341
Craven, B. M. See *Han and Craven* 1187
Creer, Michael H. See *DaTorre and Creer* 1159
Curtiss, Linda K. See *Banka et al.* 35
Czubayko, Frank, Brigitte Beumers, Stefan Lammsfuss, Dieter Lütjohann, and **Klaus von Bergmann.** A simplified micro-method for quantification of fecal excretion of neutral and acidic sterols for outpatient studies in humans 1861

D

Dallner, Gustav. See *Elmberger et al.* 935
Daniel, Peter F. See *Gross et al.* 157
Dasgupta, Somsankar, Jaw-Long Chien, Edward L. Hogan, and **Herman van Halbeek.** A disialoganglioside of the globo-series from chicken skeletal muscle 499
DaTorre, Steven D., and **Michael H. Creer.** Differential turnover of polyunsaturated fatty acids in plasmalogen and diacyl glycerophospholipids of isolated cardiac myocytes 1159
Dauzats, Michèle. See *Saulnier-Blache et al.* 1489
Daviaud, Danielle. See *Saulnier-Blache et al.* 1489
Davies, Sherry L. See *Seishima et al.* 941
Davignon, Jean. See *Mailly et al.* 613
Davis, Randall W., Vincenzo R. Pierotti, Stephen J. Lauer, Susan T. Hubl, John W. McLean, Joseph L. Witztum, and **Stephen G. Young.** Lipoproteins in pinnipeds: analysis of a high molecular weight form of apolipoprotein E 1013
Davis, Richard C. See *Stahnke et al.* 477
Davoli, A. See *Cominacini et al.* 349
Dayal, B., and **G. Salen.** Stereospecific synthesis and two-dimensional ^{1}H-NMR investigation of isoursocholic acid 1381
Delcroix, Claude. See *Malmendier et al.* 801
deSilva, Harshini V. See *Burkey, deSilva, and Harmony* 1039
Després, J. P. See *Mauriège et al.* 1625
Devereaux, Michael. See *Sokol, Devereaux, and Khandwala* 1349
Dieber-Rotheneder, Martina, Herbert Puhl, Georg Waeg, Georg Striegl, and **Hermann Esterbauer.** Effect of oral supplementation with D-α-tocopherol on the vitamin E content of human low density lipoproteins and resistance to oxidation 1325
Dietrich, A. See *Schramm et al.* 1769
Diffenderfer, Margaret R. See *Marsh and Diffenderfer* 2019
Dohlman, Jan G. See *Blackburn et al.* 1911
Donnelly, Thomas M., Sheryl F. Kelsey, Daniel M. Levine, and **Thomas S. Parker** Control of variance in experimental studies of hyperlipidemia using the WHHL rabbit 1089
Donovan, Joanne M., Natasha Timofeyeva, and **Martin C. Carey.** Influence of total lipid concentration, bile salt:lecithin ratio, and cholesterol content on inter-mixed micellar/vesicular (non-lecithin-associated) bile salt concentrations in model bile 1501
Doolittle, Mark H. See *Stahnke et al.* 477
Dory, Ladislav. Regulation of apolipoprotein E secretion by high density lipoproteins in mouse macrophages 783
Douglas, D. E. Higher aliphatic 2,4-diketones: a ubiquitous lipid class with chelating properties, in search of a physiological function 553
Downs, D. See *Alaupovic et al.* 9
Duane, William C. See *Mitchell et al.* 71
——. See *Mitchell et al.* 1143
Dubois, D. Y. See *Malmendier et al.* 801
Dugar, Sundeep. See *Tabas et al.* 1689
Durand, Denys. See *Laplaud et al.* 1429
Duval, Sandra M. See *Cook et al.* 1265
Dyer, Cheryl A. See *Banka et al.* 35

E

Ebert, David L. See *Warren et al.* 1333
Eckel, Robert H. See *Jensen et al.* 733
——. See *Neville et al.* 251
Edwards, Iris J. See *Parks et al.* 2001
Egan, Jack O. See *Belcher et al.* 359
Egestad, Börje. See *Ichimiya et al.* 829
Eggerman, T. L., J. M. Hoeg, M. S. Meng, A. Tombragel, D. Bojanovski, and **H. B. Brewer, Jr.** Differential tissue specific expression of human apoA-I and apoA-II 821
Einarsson, Kurt. See *Reihnér et al.* 469
——. See *Ståhlberg et al.* 1409
Eisenberg, Shlomo. See *Leitersdorf et al.* 1513
Elias, Peter M. See *Holleran et al.* 1151
Elmberger, P. Göran, Anders Kalén, Erik Lund, Eva Reihnér, Mats Eriksson, Lars Berglund, Bo Angelin, and **Gustav Dallner.** Effects of pravastatin and cholestyramine on products of the mevalonate pathway in familial hypercholesterolemia 935
Emken, Edward A. See *Cook et al.* 1265
Ericksson, Mats. See *Elmberger et al.* 935

SUBJECT INDEX

VOLUME 32 NUMBERS 1-12

A

ACAT: *see* **Acyl-CoA:cholesterol acyltransferase**
Acetate: Formation by peroxisomal fractions 993
Acetoacetyl-CoA: Formation by peroxisomal fractions 993
Acetyl glyceryl ether phosphocholine: Derivatization of for GC-MS 723
Acetyl-CoA: Metabolism by isolated peroxisomal fractions 993
Acetyl-CoA carboxylase: Chick embryo brain, purification, characterization, and ontogeny 1667
Acidic sterols: Micro-method for quantification of fecal excretion of 1861
Acyl chain unsaturation
Effect of on packing of model diacylglycerols in simulated monolayers 1645
Effect on conformation of model diacylglycerols 1635
Acyl-CoA:cholesterol acyltransferase: Activity in human liver 1409
Acyl-CoA synthetase: Enzyme-coupled assay of 1709
Acyl-CoA synthetase gene: Expression in adipose cells 1457
Acyl-CoA:triterpene acyltransferase: Activity in rabbit and human tissues 1689
Acyl dihydroxyacetone phosphate: Stereochemistry of acyl exchange reaction 259
Acyl specificities: Of HDL cholesteryl ester transfer and uptake 457
Acyltransferases: In *Schistosoma mansoni* 703
Adenosine deaminase: -Stimulated lipolysis in adipocytes from lean and obese men 1625
Adipocytes: From lean and obese men, lipolysis in 1625
Adipose cell
Differentiation, regulation of 1449
Differentiation, regulation of 1457
Adipose precursor cells: Differentiation, control of by glucocorticoids 569
Adipose tissue
α1, α2, and β-adrenergic receptors 191
Hormone-sensitive lipase mRNA levels in 1303
Human subcutaneous, expression of LPL in 423
In lean and obese men, regional variation in lipolysis 1625
Adolescent: Lipoprotein levels, relationship with DNA polymorphism 1477
Adrenal gland: Relationship between apoE gene expression and cholesterol content 1611
Adrenergic receptors
In adipose tissue in lean and obese men 1625
Of rat white fat cell membranes, age-related changes 191
α2-Adrenoceptor: Control of lipolysis by, in adipocytes 1489
AGEPC: *see* **Acetyl glyceryl ether phosphocholine** 723
Allele-specific nucleotide primers: Use of in genotyping of apoE 183
Allo-deoxycholic acid: Side product of intestinal 7α-dehydroxylation of cholic acid 89
Amino acid composition: Of apoE3 and apoE5 isoforms 521
Amino acid sequence
Of rabbit apoE 165
Of rabbit, human, and rat hepatic lipase 1333
Of rat apoC-II 1805
Predicted, of human pancreas carboxyl ester lipase 267
Predicted, of sea lion apoE 1013
Analbuminemic rats: Hyperlipoproteinemia in 1719
Androgen: Regulation of apoA-I gene expression by inbred strains of mice 1571
Antioxidant effects: Of probucol 197
Antioxidants
Effect on lipoprotein-induced inhibition of mononuclear cell proliferation 775
In plasma and LDL, effect of oral supplementation of D-α-tocopherol 1325
Aorta, atherosclerotic rabbit: Uptake and degradation of LDL in 55
aP2 gene
In adipose cells, induced by fatty acids 1449
In adipose cells, induced by fatty acids 1457
ApoB gene: Polymorphism in 137
Apolipophorins: Localization in lipophorins 407
Apolipoprotein(s)
Activators, effect on specificity of LCAT 1601
B and A-I/C-III genes, DNA polymorphism of 1477
Hepatic mRNA levels in baboons, effect of dietary lipids 1929
Human, incorporation of stable isotopically labeled amino acid into 1063
Of hepatocyte Golgi and serum VLDL 529
Plasma, effect of dietary cholesterol on levels of 1281
Synthesis, hepatic regulation in the 17α-ethinyl estradiol-treated rat 941
Apolipoprotein[a]
Contribution of apo[a] phenotypes to plasma Lp[a] concentrations 1919
Isoforms of in normal and FH subjects 1513
Isoforms, relationship to Lp[a] buoyant density 679
Polymorphism 1919
Quantification in human atherosclerotic lesions 317
Apolipoprotein A
Familial deficiency, characterization of apoA-I- and apoB-containing lipoprotein particles 1587
Lipoprotein particles, characterization of in familial apoA-I deficiency 1587
Apolipoprotein A-I
Associated with HDL, in vivo metabolism of 801
Autologous, method for study of kinetics of 867
Basis for HPLC chromatographic heterogeneity of 1465
CNBr fragments and DMPC, discoidal complexes of 1253
Decrease of neutrophil degranulation and superoxide production by 1911
Dissociation of HDL precursors from apoB-containing lipoproteins in presence of 917
Epitope mapping of 595

Gene, regulation of expression of by estrogen and androgen in inbred strains of mice 1571
Hepatic metabolism of, effect of thyroid status and fasting 395
Human, differential tissue-specific expression of 821
In HDL in nephrotic rats 1675
Lipoproteins containing, particle size distribution in subjects with coronary artery disease 383
New genetic variant of 1275
On HDL particles LpA-I and LpA-I,A-II, metabolism of 1849
Pre-beta-migrating, secretion by cynomolgus monkey hepatocytes in culture 439
Variants, properties of HDL disks prepared with 97
Yame, characterization by sequencing of PCR-amplified DNA 1275
Apolipoprotein A-I/C-III deficiency: Effect of apolipoprotein activators on specificity of LCAT 1601
Apolipoprotein A-I/C-III gene: DNA polymorphism of 1477
Apolipoprotein A-II
Human, differential tissue-specific expression of 821
Lipoprotein-A-II:B complex in VLDL in Tangier disease and type V hyperlipidemia 9
Apolipoprotein A-IV
Associated with HDL, in vivo metabolism of 801
Genotyping of 545
Human, restriction isotyping of 1529
New isoform that deletes a conserved repeat 1529
Apolipoprotein B
Effect of Cu^{2+}-mediated oxidation of dialyzed plasma on immunoreactivity of 243
Gene mutation in a patient with homozygous hypobetalipoproteinemia 1341
Gene mutations, identification by PCR cloning and sequencing 1341
Gene, analysis of tandem repetitive elements in 374
In VLDL, kinetic heterogeneity 1099
Kinetics in hypertriglyceridemic subjects 743
Kinetics in IDDM 1133
Lipoprotein particles, characterization in familial apoA-I deficiency 1587
Lipoprotein-A-II:B complex in VLDL in Tangier disease and type V hyperlipidemia 9
Lipoproteins, dissociation of HDL precursors from 917
Measurement of synthesis in the perfused liver using [^{15}N]glycine 2019
Metabolic pathways in heterozygous FH 1823
Mutation at codon 3500 (CGG to CAG), detection by gene amplification and cleavage with MspI 1229
Quantification in human atherosclerotic lesions 317
Susceptibility to Cu^{2+}-catalyzed oxidative modification 349
Synthesis in the 17α-ethinyl estradiol-treated rat 941
Truncated forms in hypobetalipoproteinemia 1001
Apolipoprotein B gene: DNA polymorphism of 1477
Apolipoprotein B kinetics
Nutritional regulation of 1837
Studies in FH patients on a high carbohydrate, low fat diet 1837
Apolipoprotein B metabolism: Metabolic parameters of 1311
Apolipoprotein B-54.8: Associated with a nonsense mutation in the apoB gene 1001
Apolipoprotein C-II
Basis for HPLC chromatographic heterogeneity of 1465
Rat, amino acid and nucleotide sequence 1805
Rat, expression in liver and small intestine 1805
Apolipoprotein C-III: Basis for HPLC chromatographic heterogeneity of 1465
Apolipoprotein composition
Of HDL subpopulations in galactosamine-treated rats 581
Of hyperlipoproteinemic analbuminemic rats 1719
Apolipoprotein D: Major sites of gene transcription in the rabbit 1959
Apolipoprotein E
Characterization of a new variant, apoE5 613
Gene expression in the rat adrenal gland, relationship with cholesterol content 1611
Gene expression, regulation by sterol 507
Genotyping, using PCR and allele-specific oligonucleotide primers 183
High molecular weight form in pinnipeds 1013
mRNA levels in the cholesterol-fed, alloxan-diabetic rabbit 431
Rabbit, amino acid sequence of 165
Rapid phenotyping of by immunofixation in agarose 880
Regulation of secretion by HDL_3 in mouse macrophages 783
Secretion by rat liver cultured lipocytes 107
Apolipoprotein E gene: Induction by LDL in THP-1 human monocytes 507
Apolipoprotein E5
Co-dominant transmission of 613
Receptor binding activity 521
Apolipoprotein E5 variants: 84 Pro→Arg, 112 Cys→Arg; 3 Glu→Lys 521
Apolipoprotein gene expression: In an inbred strain of rats with spontaneous nephrotic syndrome 1675
Apolipoprotein J
Precursor, processing of the the mutant heterodimer 1039
Processing and secretion by HepG2 cells 1039
Arachidonic acid
Effect of on GPDH expression in adipose precursor cells 569
Arachidonic acid 12(R)-oxygenase: In psoriatic epidermis 341
Archaebacteria: Lipid profile of 659
Archaebacterial ether lipids: Analyzed by supercritical fluid chromatography 65
ATAT: *see* **Acyl-CoA:triterpene acyltransferase** 1689
Atherogenic diet: Effect of on lipoproteins of different strains of mice 559
Atherosclerosis: In CTX 223
Atherosclerotic lesions
Modified LDL from 115
Quantification of apo[a] and apoB in 317
Atherosclerotic rabbit aorta: Uptake and degradation of LDL in 55

B

Bile
Cholesterol transport in 205
Human, determination of lipid composition 371
Increased levels of plant sterols and cholesterol precursors in CTX 223
Nucleation of cholesterol crystals, effect of protein hydrolysis 215
Bile acid(s)
3β-, 7β-, and 12β-hydroxy, synthesis of 977
Chemical synthesis and hepatic biotransformation of 7-methyl norchenodeoxycholic acid 1729
Conjugated with cysteinolic acid 1619
Enterohepatic circulation of, effect on cholesterol esterification rate in human liver 1409

In a child with hepatic 3β-hydroxy-Δ⁵-C_{27}-steroid dehydrogenase deficiency 829
Of marsupials 1417
Oxo, selective reduction of 977
Short chain, hepatic metabolism of 1949
Synthesis and biliary cholesterol secretion in humans, regulation of 1143
Synthesis of stereoisomeric 3,6,12α-trihydroxy-5β-cholanoic acids 649
Bile acid composition: Of bile fistula hamster infused with 7-Me-norCDCA 1729
Bile acid(s), keto: Preparation of 977
Bile acid metabolism: In humans, effects of lovastatin 71
Bile alcohols: In a child with hepatic 3β-hydroxy-Δ⁵-C_{27} steroid dehydrogenase deficiency 829
Bile, gallbladder: Protein fraction from, effect on cholesterol crystallization 695
Bile, model: Distribution of lecithin molecular species between mixed micelles and vesicles 1291
Bile salt(s)
Calcium binding by 621
Concentration in model bile, influence of cholesterol content, and bile salt:lecithin ratio 1501
Fluorescent derivatives of 1755
Fluorescent derivatives of 1769
NBD-amino derivatives, use of in study of hepatobiliary transport 1769
Of wild and cultured red seabream 1619
Synthesis and properties of NBD-amino derivatives of 1755
Taurine-conjugated, study of hepatobiliary transport, using NBD-amino derivatives 1769
Bile salt:lecithin ratio: In model bile, influence on intermixed micellar/vesicular bile salt concentrations 1501
Biliary cholesterol: Secretion and bile acid synthesis in humans, regulation of 1143
Biliary lecithin: Distribution between mixed micelles and vesicles, effect of acyl chain unsaturation 1291
Biliary lipid(s)
Composition of 205
Composition of 215
Biliary lipid secretion
Effect of phosphatidylcholine molecular species on 985
In humans, effects of lovastatin 71
Binding parameters: Of ^{99m}Tc-labeled LDL, comparison with ^{125}I-labeled LDL 1
Brain gangliosides, bovine: Rapid isolation of monosialogangliosides from 1712
Bunazosin: Novel ligand for the α1 adrenoceptor 191

C

C57BL/6J mice: Neutral glycosphingolipids in urine of 157
CA-TLC: *see* **Chromatography, thin-layer, centrifugally accelerated**
Caco-2 cells
Cholesterol metabolism in 1811
Regulation of expression of HMG-CoA reductase gene by micellar cholesterol in 1811
Regulation of synthesis and degradation of HMG-CoA reductase by micellar choiesterol 1811
Uptake and metabolism of fatty acids by 293
Calcium binding
By bile salt-PC mixtures 621
By monosulfate esters of taurochenodeoxycholate 621
Calmodulin: Inactivation of, by cholesterol hydroperoxides 1403
Campesterol: Increased levels of in serum and bile in CTX 223
Carbohydrate diet, high: Effect on cholesterol synthesis and apoB kinetics in FH and normal subjects 1837
Cardiac myocytes: Differential turnover of polyunsaturated fatty acids in phospholipids 1159
Carotenoids: In plasma and LDL, effect of oral supplementation of D-α-tocopherol 1325
Cataractous lens membrane fractions: Relative lipid composition 45
cDNA: Carboxyl ester lipase, human pancreas, isolation of 267
CE: *see* **Cholesteryl ester**
Cellular retinol-binding protein
Immunolocalization of 1521
Ontogeny in rat small intestine 1521
Ceramide metabolism: Effect of PDMP on 713
Cerebrotendinous xanthomatosis
5α-Cholest-7-en-3β-ol in 603
Levels of plant sterols and cholesterol precursors 223
Serum 7-lathosterol in 603
CETP: *see* **Cholesteryl ester transfer protein**
Chemical composition: Of plasma and postprandial intestinal lymph lipoproteins in the preruminant calf 1429
Chemical crosslinking: Of HDL subpopulations from galactosamine-treated rats 581
Chenodeoxycholic acid
Effect of on bile acids and alcohols in hepatic 3β-hydroxy-Δ⁵-C_{27}-steroid deficiency 829
Effects of on serum sterols in CTX 223
Hepatic formation of vulpecholic acid from in a marsupial 1417
Chick embryo brain: Purification, characterization, and ontogeny of acetyl-CoA carboxylase 1667
Children: Serum lipoprotein levels, relationship with DNA polymorphism 1477
Chiral phase high performance liquid chromatography: Of diacylglycerols 1173
CHO-K1 cells: Effects of inhibitors of sterol synthesis on HMG-CoA reductase activity 1215
Choleresis: In the hamster, induction by 7-methyl-norCDCA 1729
Cholestanyl caprylate
Binary phase behavior with cholesteryl caprylate 1187
Crystal structure of 1187
5α-Cholest-7-en-3β-ol: Determination of serum levels in CTX and disturbances of sterol metabolism 603
Cholesterol
Crystal formation in bile 205
In endothelial cell plasma membrane 1125
In lipoproteins from 200 μl of plasma or serum, microenzymatic measurement of 359
In lipoproteins, on-line determination by HPGC 859
In model bile, influence on intermixed micellar/vesicular bile salt concentration 1501
In rat adrenal gland, relationship with apoE gene expression 1611
Secretion into bile, effect of lovastatin 71
Solubility in model bile 1291
Solubilization in bile, effect of phosphatidylcholine composition 985
Cholesterol absorption: In rats, synthesis by sesamin 629
Cholesterol biosynthesis
Regulation in sitosterolemia 1941

Role of plasma membrane sphingomyelin in regulation of, in cell cultures 125
Cholesterol crystallization: Effect of protein fraction from human gallbladder bile on 695
Cholesterol crystals: From native bile, nucleation of, effect of protein hydrolysis 215
Cholesterol, dietary: And alloxan diabetes, effect on tissue cholesterol and apoE enterohepatic circulation 1409
Cholesterol efflux: From cells to immunopurified HDL subfractions 1993
Cholesterol, erythrocyte: In measurement of in vivo cholesterol synthesis from ^2H_2O 1049
Cholesterol esterification: In human liver, stimulation of interrupted bile acid mRNA levels in the rabbit 431
Cholesterol gallstone disease: Metabolism of hepatic cholesterol in 469
Cholesterol gallstones: Cholesterol transport in patients with 205
Cholesterol hydroperoxides: Calmodulin-inactivating, isolation and characterization of 1403
Cholesterol, intracellular: Disposition in human fibroblasts 329
Cholesterol metabolism
Hepatic, in cholesterol gallstone disease 469
In CaCo-2 cells 1811
Cholesterol, plasma: Variance in WHHL rabbits 1089
Cholesterol precursors: Increased levels of in serum and bile in CTX 223
Cholesterol, serum: In children and adolescents, relationship with DNA polymorphisms 1477
Cholesterol synthesis
From ^2H_2O, in vivo measurement 1049
In rats, inhibition by sesamin 629
Nutritional regulation of 1837
Rate of in humans, correlation with plasma dehydrocholesterol levels 1441
Role of in regulation of bile acid synthesis and biliary cholesterol secretion 1143
Studies in FH patients on a high carbohydrate, low fat diet 1837
Cholesterol transport: In bile 205
Cholesterol-5,6-epoxide: Isomeric, metabolism of in rabbit aortic endothelial cells 147
Cholesterol-carrying particles: In bile, micellar and vesicular 1501
Cholesterol-loaded macrophages: Rates of apoE secretion in 783
Cholesteryl caprylate: Binary phase behavior with cholestanyl caprylate 1187
Cholesteryl ester(s)
Accumulation in THP-1 cells cultured with lipoproteins 35
Fatty acid composition of, in LDL subfractions, in CETP deficiency 21
Formation of in apoA-I/C-III deficiency 1601
HDL, comparative acyl specificities for transfer and selective uptake of 457
Of cynomolgus monkeys, effect of dietary fat on 305
Of intracellular origin, in triglyceride-rich LDL, association with CETP deficiency 21
Selective uptake from LDL in vivo and in vitro 667
Cholesteryl ester hydrolases: Microsomal, relationship to retinyl ester hydrolases 685
Cholesteryl ester transfer protein
Effect of Cu^{2+}-mediated oxidation of oxidized plasma on 243
Human and rabbit, specificities of 457
Cholesteryl ester transfer protein deficiency
Associated with triglyceride-rich LDL with cholesteryl esters of intracellular origin 21
Lipoprotein composition in 21
Cholestyramine
Effects of on products of the mevalonate pathway in FH 935
Effects on regulation of cholesterol biosynthesis in sitosterolemia 1941
Cholic acid: Mechanism of intestinal 7α-dehydroxylation 89
Choline phosphotransferase: Activity in the slug *Incilaria bilineata* 1795
Chromatography, fast protein liquid: Fractionation of charge-modified LDL by 1359
Chromatography, gas
And mass spectrometry of PAF derivatives 723
And mass spectrometry, use of in quantitation of plasma mevalonic acid 1057
Chromatography, heparin-Sepharose affinity: Subfractionations of lipoproteins by 1429
Chromatography, high performance gel filtration: Of cholesterol in lipoproteins 859
Chromatography, high performance liquid: Chiral phase, of diacylglycerols 1173
Chromatography, ion-exchange: Isolation of an oxidation-labile subfraction of LDL by 763
Chromatography, selective-overload: Rapid isolation of monosialogangliosides from bovine brain gangliosides by 1712
Chromatography, supercritical fluid: Analysis of archaebacterial ether lipids by 657
Chromatography, thin-layer, centrifugally accelerated: Preparative separation of neutral lipids and phospholipids by 877
Chylomicron(s): Triacylglycerols, composition of *sn*-2 fatty acids 1173
Chylomicron remnants: Processing of by the liver 485
Clinical characteristics: Of a kindred heterozygous for apoB-54.8/apoB-100 1001
Computer modeling: Of conformation of model diacylglycerols 1635
Conformation: Of model diacylglycerols 1635
Copper oxidation: Of LDL 1983
Coronary artery disease: Particle size distribution of apoA-I-containing lipoproteins 383
Corticosterone: Effect of on GPDH expression in adipose precursor cells 569
CRABP: *see* **Retinoic acid-binding protein, cellular**
CRBP: *see* **Cellular retinol-binding proteins**
Crohn's disease: Cholesterol esterification in liver 1409
Crystal structure: Of cholestanyl caprylate 1187
CTX: *See* **Cerebrotendinous xanthomatosis**
Cu^{2+}-mediated oxidation: Of dialyzed plasma, effect on LDL, HDL, and CETP 243
Cumene hydroperoxide: Cytotoxic effects of on cultured endothelial cells 197
Cynomolgus monkeys
Effect of dietary fish oil on binding of LDL subfractions to arterial proteoglycans 2001
Hepatocytes, in culture, secretion of preβ-migrating apoA-I 439
LDL, effect of dietary fish oil on properties of 305
Cysteinolic acid: Bile acids conjugated with, in the red seabream, *Pagrosomus major* 1619
Cytochrome P-450: Inhibition of, effect on metabolism of PDMD 713

Cytokine production: Modulation by lipoproteins 1899
Cytotoxicity: Of isomeric cholesterol-5,6-epoxide in rabbit aortic endothelial cells 147

D

Dehydrocholesterols
In plasma, correlation with rate of cholesterol synthesis in humans 1441
Isomeric, occurrence in human plasma 1441
7α-Dehydroxylation: Intestinal, of cholic acid, mechanism of 89
Dexamethasone: Effect of on aP2 gene expression in preadipose cells 1457
Diabetes mellitus, insulin-dependent: Abnormal clearance of postprandial S_f 100–400 plasma lipoproteins in 1133
Diabetes, alloxan: And dietary cholestcorl, effect on tissue cholesterol and apoE mRNA levels in the rabbit 431
Diacylglycerols
In low density lipophorin particles 427
Localization in lipophorin 1781
Model, effect of acyl chain unsaturation on conformation 1635
Packing in simulated monolayers, effect of acyl chain unsaturation 1645
Role of, in lipophorin 1781
Dietary cholesterol
And alloxan diabetes, effect on tissue cholesterol and apoE mRNA levels in the rabbit 431
Short term, influence on human plasma Lp[a] and LDL levels 1281
Dietary fat
Effect of on apo[a] isoforms and Lp[a] buoyant density 679
Short term, influence on human plasma Lp[a] and LDL levels 1281
Dietary fatty acids: Effect of of composition of mouse macrophage glycerophospholipids 1205
Dietary lipid
Effect of, on mitochondrial lipid peroxidation in the bile duct-ligated rat 1349
Influence on hepatic HMG-CoA synthase mRNA levels in baboons 1929
Influence on hepatic LDL receptor mRNA levels in baboons 1929
Dietary sterol restriction: Effects on regulation of cholesterol biosynthesis in sitosterolemia 1941
Dietary vitamin E: Effect of, on lipid peroxidation in bile duct-ligated rat 1349
Differentiation
Of adipose cells, regulation of 1449
Of adipose cells, regulation of 1457
Of hamster preadipocytes 1489
3α,7α-Dihydroxy-7β-methyl-24-nor-5β-cholan-23-oic acid
A 7-methyl derivative of norchenodeoxycholic acid 1729
Chemical synthesis and hepatic biotransformation 1729
Dihydroxyacetone phosphate: Stereochemistry of acyl exchange reaction 259
2,4-Diketones: Aliphatic, physiological function, a review article 553
Dimyristoylphosphatidylcholine: And apoA-I-CNBr fragments, discoidal complexes of 1253
Discoidal complexes: Of apoA-I-CNBr fragments and DMPC, characterization of 1253
Disialoganglioside: Globo-series, from chicken skeletal muscle 499
DMPC: *see* **Dimyristoylphosphatidylcholine**
DNA polymorphisms: In apoB and A-I/C-III genes, relationship 1477
Docosahexaenoic acid: Recycling in rat retina 2009
Dyslipoproteinemia: In an inbred strain of rats with spontaneous nephrotic syndrome 1675

E

Eicosapentaenoic acid: And oleic acid, differential effects on lipid metabolism in HepG2 cells 231
Electron microscopy
Of endosomal fractions of liver from rats injected with β-VLDL 485
Of hepatocyte Golgi fractions 529
Of lipophorin particles 417
Of self-aggregated LDL 953
ELISA: In epitope mapping of apoA-I 595
Endoproteinase cleavage: In epitope mapping of apoA-I 595
Endosomal membranes: Hepatic, enzymatic activity and composition 485
Endothelial cells
Prevention of oxidative injury to, by probucol 197
Rabbit aortic, treated with β-VLDL, increase of plasma membrane cholesterol in 1125
Rabbit aortic, uptake, metabolism, and cytotoxicity of cholesterol-5,6-epoxides 147
Enterohepatic circulation: Of bile acids, effect of on cholesterol esterification rate in human liver 1409
Enzyme-coupled assay: Of acyl-CoA synthetase 1709
EPA: *see* **Eicosapentaenoic acid**
Epidermis: Sphingolipid synthesis in 1151
Erythrocyte cholesterol: In measurement of in vivo cholesterol synthesis from ^2H_2O 1049
Essential fatty acid deficiency: n-3 fatty acids, recycling of docosahexanoic acid in rat retina in 2009
Estrogen: Regulation of apoA-I gene expression by inbred strains of mice 1571
Ethane: Generation during lipid peroxidation in leukemic cells 79
17α-Ethinyl estradiol: Effect of on regulation of hepatic apolipoprotein synthesis 41
Ethnic groups: Relationship of apo[a] phenotypes to plasma Lp[a] concentrations 1919
Etianic acid: Formation from isoetianic acid by epimerization 1949
***Eubacterium* sp. VPI 12708:** 7α-Dehydroxylation of cholic acid by 89
Expression: Of rat hepatic lipase in heterologous systems 963
Expression, tissue-specific: Of human apoA-I and apoA-II 821

F

Familial apoA-I deficiency: ApoA-I- and apoB-containing lipoprotein particles in 1587
Familial hypercholesterolemia
Effects of pravastatin and cholestyramine on products of the mevalonate pathway 935
Heterozygous metabolic pathways of apoB in, studies with a [^{3}H]leucine tracer 1823
Nutritional regulation of cholesterol synthesis and apoB kinetics 1837
Plasma Lp[a] levels in 1513

Fasting
Effect of on hepatic metabolism of apoA-I 395
Effect of on liver phospholipids 887
Induction of fatty liver in the suncus 887
Fat body: Transfer of lipid to lipophorin 1789
Fat cells: Adrenergic receptors of 191
Fatty acid(s)
Effect on biliary lipid secretion 985
Inducers of aP2 gene expression in adipose cells 1449
Inducers of aP2 gene expression in adipose cells 1457
Uptake and metabolism by Caco-2 cells 293
Fatty acid auxotroph: Of *Saccharomyces cerevisiae,* use of to modify mitochondrial membranes 1025
Fatty acid composition
Of cynomolgus LDL lipids, effect of dietary fat on 305
Of HepG2 cell lipids 231
Of leukemic cells enriched with various fatty acids 79
Of menhaden oil 1173
Of phospholipids from cultured glioma cells 1265
Of plasma PC in apoA-I/C-III deficiency 1601
Of *sn*-1,2- and *sn*-2,3-diacylglycerol moieties of chylomicron triacylglycerols 1173
Fatty acid deficiency, n-3: Recycling of docosahexaenoic acid in rat retina in 2009
Fatty acid oxygenase: Fro psoriatic scales 341
Fatty acid(s), n-3: Influence of on macrophage glycerophospholipid molecular species and peptidoleukotriene synthesis 1205
Fatty acid(s), polyunsaturated: Differential turnover in cardiac myocyte plasmalogen and diacylphospholipids 1159
Fatty acid salts: α, β, and ω fluorinated, synthesis of 843
Fatty acid(s), unesterified
Dissociation of HDL precursors from apoB-containing lipoproteins in presence of 917
Induction of size transformation of IDL and LDL by 903
Fatty liver: In the suncus, induction by fasting 887
Fecal excretion: Of neutral and acidic sterols, quantification of 1861
FH: *see* **Familial hypercholesterolemia**
Fiber junction membranes: Of lens, lipid composition of 45
Fibroblasts
Cholesterol efflux from, to immunopurified HDL subfractions 1993
Distribution of intracellular cholesterol in 329
Selective uptake of LDL cholesteryl esters by 667
Fish oil
Effect of on binding of LDL subfractions to arterial proteoglycans in cynomolgus monkeys 2001
Fatty acid composition of menhaden oil 1174
Fish oil, dietary: Effect on properties of cynomolgus monkey LDL 305
Fluorescence microscopy: Using NBD-amino derivatives of bile salts 1769
Fluorescent derivatives: Of bile salts 1755
Foam cell(s)
Formation by human monocytic leukemia cells (THP-1) 35
In atherosclerotic tissue, uptake of LDL by 55
Foam cell formation: Lipoprotein induced, by monocytic leukemia cells 35
FPLC: *see* **Chromatography, fast protein liquid**
Fractional catabolic rate
Of apoA-I and apoA-II in normal subjects 1849
Of apoA-I and apoA-IV in HDL 801
Of apoB and triglyceride in hypertriglyceridemia 743
Of apoB in lipoproteins 1311
Of doubly labeled lipoproteins in rats 667
Fractional uptake: Of doubly labeled LDL by rat and human tissues 667
Fusion protein: Of rat hepatic lipase in *E. coli* 963

G

Galactosamine-treated rats: HDL subpopulations of 581
Gallbladder bile
Composition of 205
Lipid composition of 469
Protein fraction from, effect on cholesterol crystallization 695
Gallstone disease: Cholesterol esterification in liver 1409
Gallstone disease, cholesterol: Metabolism of hepatic cholesterol in 469
Gangliosides
Bovine brain, rapid isolation of monosialogangliosides from 1712
From chicken skeletal muscle 499
Gene(s)
ApoA-I, regulation by estrogens and androgens in an inbred strain of mice 1571
ApoB and A-I/C-III, DNA polymorphism and lipoprotein levels 1477
ApoB, analysis of tandem repetitive elements in 374
Gene amplification: And cleavage with MspI, detection of apoB mutation at codon 3500 1229
Gene expression
Of apoE in the rat adrenal gland 1611
Of carboxylester lipase mRNA 267
Of HMG-CoA reductase, regulation by micellar cholesterol in CaCo-2 cells 1811
Gene transcription: Of apoD in the rabbit 1959
Genetic effects: Of ethnicity on plasma Lp[a] levels in FH 1513
Genetic polymorphism: Of apoA-IV 545
Genital tissue: Male rabbit, expression of apoD mRNA in 1959
Glioma cells: Desaturation and elongation of linolenic acid in 1265
Glucocorticoids: Control of differentiation of adipose precursor cells by 569
Glucosylceramide synthesis: Inhibited by D-[^{3}H]-threo-1-phenyl-2-decanoylamino-3-morpholino-1-propanol 713
Glycerol-3-phosphate dehydrogenase
Expression in preadipocyte cells 569
Expression of in adipose precursor cells, effect of cortisone and arachidonic acid 569
Glycerophospholipid(s): Composition in slugs 1795
Glycerophospholipid(s), diacyl: Cardiac myocyte, differential turnover of polyunsaturated fatty acids in 1159
Glycerophospholipid molecular species: Macrophage, influence of n-3 fatty acids 1205
[^{15}N]Glycine
Use of in measurement of apoB synthesis in the perfused liver 2019
Use of in studies of kinetic parameters of apoB metabolism 1311
Glycolipids: In multilamellar lysosomal bodies of male mouse urine 157
Glycosaminoglycans: Modification of Cu^{2+}-catalyzed oxidation of LDL by 1983
Glycosylation, N-linked: Of hepatic lipase, effect on activity 477
GM-43 fibroblasts: Effect of sphingomyelinase on cholesterol metabolism in 125
Golgi fractions, hepatocyte: Nascent lipoproteins from 529

GPDH: *see* **Glycerol-3-phosphate dehydrogenase**
Guinea pigs: Distribution and synthesis of LPL in lungs, spleen, and liver 1877

H

HDL: *see* **High density lipoprotein**
Head group precursors: Of phospholipids in *Schistosoma mansoni* 703
Helical content: Of discoidal complexes of apoA-I fragments and DMPC 1253
Helical domains: Of apoA-I, mediation of decreased neutrophil activation by 1911
Hemolymph: Composition–structure relationship of lipophorins in 407
Hepatic injury: In the bile duct-ligated rat, effect of dietary lipid and vitamin E on 1349
Hepatic lipase
Rabbit, mRNA levels 1333
Rabbit, nucleotide sequence of cDNA 1333
Rat, expression of in heterologous systems 963
Rat, expression of in *Xenopus* oocytes 477
Hepatic lipase activity: Effect of N-linked glycosylation on 477
Hepatobiliary transport: Of bile salts 1769
Hepatocyte(s)
Cynomolgus monkey, secretion of nascent HDL by 439
Rat, secretion of VLDL, effect of monomethylethanolamine 1971
Hepatocyte Golgi fractions: Nascent lipoproteins from 529
Hepatoma cells: Cholesterol efflux from, to immunopurified HDL subfractions 1993
HepG2 cells
Effect of macrophage-derived factors on LDL receptor number 1889
Effect of sphingomyelinase on cholesterol metabolism in 125
Effects of EPA and oleic acid on lipid synthesis and secretion 231
Inhibition of sterol synthesis in, effect on LDL cholesterol metabolism 1657
Processing and secretion of apoJ by 1039
Regulation of retinol uptake and esterification in, by exogenous fatty acids 809
Uptake of LDL, by, effect of macrophage-derived factors 1889
High density lipoprotein
Cholesteryl esters, comparative acyl specificities for transfer and uptake of 457
Cytotoxic effect on trypanosomes 639
Differential tissue-specific expression of human apoA-I and apoA-II 821
Disks, prepared with apoA-I variants, properties of 97
Effect of Cu^{2+}-mediated oxidation of dialyzed plasma on 243
Formation of subclasses during lipolysis 917
HDL_1 phenotype in baboons, effect of dietary lipid on apolipoprotein mRNA levels 1929
In an inbred strain of rats with spontaneous nephrotic syndrome 1675
In vivo metabolism of apoA-I and apoA-IV associated with 801
Labeled with phosphatidylcholine ethers 793
Mechanism of HDL_2 stimulation of progesterone secretion in cultured placental trophoblast 1073
Metabolism of apoA-I on LpA-I and LpA-I,A-II 1849
Pre-beta, origin of in plasma of primates 439
Precursors, dissociation from apoB-containing lipoproteins 917
Regulation of apoE secretion in HDL_3 in mouse macrophages 783
Subfractions, cholesterol efflux to, from whole cells 1993
Subpopulations in subjects with coronary artery disease 383
Subpopulations, in galactosamine-treated rats 581
Turnover of apoA-I in 867
Turnover, effects of hydrophobicity on 793
HMG-CoA: *see* **3-Hydroxy-3-methylglutaryl coenzyme A**
Hormone-sensitive lipase: mRNA, developmental regulation in rat adipose and steroidogenic tissues 1303
HPGC: *see* **Chromatography, high performance gel filtration**
HPLC: *see* **Chromatography, high performance liquid**
Human milk: LPL in, effect of fasting, insulin, and glucose 251
7α-Hydroxylase
Activity in cholesterol gallstone disease 469
Activity in human liver 1409
3β-Hydroxy-Δ^5-C_{27}-steroid dehydrogenase
Deficiency, bile acids and bile alcohols in 829
Deficiency, effect of chenodeoxycholic acid 829
3β-Hydroxy-5α-cholest-8(14)-en-15-one
A regulator of cholesterol metabolism, analysis of mitochondrial metabolites 1371
Characterization of trimethylsilyl dienol ethers of 1371
β,γ-unsaturated analogs of, effects on HMG-CoA reductase 1215
3-Hydroxy-3-methylglutaryl coenzyme A reductase
Activity in cholesterol gallstone disease 469
Activity in human liver 1409
Activity in mononuclear leukocytes from sitosterolemic patients 1941
Effects of β,γ-unsaturated analogs of 3β-hydroxy-5α-cholest-8(14)-ene-15-one on 1215
In leukocytes, in leukemia and lymphoma 1237
Leukocyte, in vivo regulation of 1237
Regulation of synthesis and degradation in CaCo-2 cells by micellar cholesterol 1811
Role of plasma membrane sphingomyelin in regulation of, in cell cultures 125
3-Hydroxy-3-methylglutaryl coenzyme A reductase gene: Regulation of expression in CaCo-2 cells by micellar cholesterol 1811
3-Hydroxy-3-methylglutaryl coenzyme A reductase phosphatase
Activity, rat liver microsomes, isolation and partial characterization 1391
Phosphorylation of 1391
3-Hydroxy-3-methylglutaryl coenzyme A synthase: Hepatic mRNA levels in baboons, effect of dietary lipid 1929
Hydroperoxides, cholesterol: Calmodulin-inactivating, isolation and characterization of 1403
Hydrophobicity: Effect of on turnover of HDL labeled with phosphatidylcholine ethers 793
6-Hydroxylated bile acid: Synthesis of 649
Hyperlipidemia: Control of variance in WHHL rabbits 1089
Hyperlipoproteinemia: In Nagase analbuminemic rats 1719
Hyperthyroid state: Increase of hepatic apoA-I synthesis 395
Hypertriglyceridemia: Kinetics of apoB and triglycerides in 743
Hypobetalipoproteinemia
Phenotypic homozygous, apoB gene mutation in 1341
Truncated forms of apoB in 1001
Hypothyroid state: Decrease of hepatic apoA-I synthesis 395

I

IDDM: *see* **Diabetes mellitus, insulin-dependent**
IEC-6 cells: Effect of sphingomyelinase on cholesterol metabolism in 125
IL-1β: *see* **Interleukin-1β**
Immunochemistry: Of Lp[a] 277
Immunofixation: Of apoE isoforms in agarose 880
Immunohistochemistry, fluorescence: Localization of LPL in lactating mammary tissue by 733
Immunolocalization: Of CRBP in the fetal rat small intestine 1521
Inbred mouse strains: Regulation of apoA-I gene expression by estrogens and androgens 1571
Inhibitors
Of lanosterol 14α-demethylase, effects on sterol biosynthesis 893
Of protein kinase C, effect on expression of IL-1β and acetylated LDL receptor 1699
Of sterol synthesis 1215
Insulin deficiency: Possible effect on apoE gene expression and tissue cholesterol homeostasis 431
Insulin, plasma: Regulation of mammary LPL by 251
Interleukin: Effect of LDL receptor activity in HepG2 cells 1889
Interleukin-1β
mRNA expression in mouse macrophages, induced by LPS, inhibition by oxidized LDL 1899
Suppression of expression in macrophages, by a protein kinase C inhibitor 1699
Intermediate density lipoprotein
Kinetic parameters of apoB in 1311
Kinetics of apoB and triglycerides in, in hypertriglyceridemia 743
Size transformation of, induced by fatty acids 903
Turnover of 1099
Intestinal epithelial cells: Effect of sphingomyelinase on cholesterol metabolism in 125
Intestinal lymph lipoproteins: In the preruminant calf 1429
Intracellular cholesterol: Disposition in human fibroblasts 329
Intracellular sequestration: Of ^{99m}Tc-labeled LDL 1
Isoetianic acid: Epimerization to etianic acid 1949
Isoforms
Of apo[a] in normal and FH subjects 1513
Of apoA-IV 1529
Of apoE 521
Of apoE 880
Isoproterenol: -Stimulated lipolysis in adipocytes from lean and obese men 1625
Isotope enrichment: Of lipoproteins after intravenous administration of [4,4,5,5-$^2H_4$]lysine 1063
Isotope, stable: Incorporation of labeled amino acid into human lipoproteins 1063
Isotopic assay: Of in vivo cholesterol synthesis from ^2H_2O 1049
Isoursocholic acid: Stereospecific synthesis and two-dimensional ^{1}H-NMR investigation of 1381

K

Keto bile acids: Preparation of 977
15-Ketosterol: Analysis of mitochondrial metabolites 1371
Kidney: Role in vitamin A homeostasis 515
Kinetic constants: Of reconstituted HDL 97
Kinetic heterogeneity: Of apoB in VLDL 1099
Kinetic model: Of apoB and triglyceride in hypertriglyceridemia 743
Kinetic parameters
Of apoA-I and apoA-IV metabolism 801
Of apoA-I injected on LpA-I and LpA-I,A-II 1849
Of apoB metabolism 1823
Of autologous apoA-I 867
Of lipoproteins 1099
Kinetics
Of apoB and triglyceride in hypertriglyceridemic subjects 743
Of apoB in IDDM 1133
Of induction of aP2 gene in preadipose cells 1457
Of postprandial S_f 100–400 lipoproteins in IDDM 1133
Kupffer cells: Synthesis of LPL in 1877

L

Lamellar bodies
Formation and intracellular movement 1539
In disease 1539
Structure and function, a review 1539
Lanosterol 14α-demethylase: Effects of inhibitors of on sterol synthesis 893
Lathosterol: Increased levels of in serum and bile in CTX 223
7-Lathosterol
Determination of serum levels in CTX and disturbances of sterol metabolism 603
Serum, an indicator of cholesterol production rate 603
LCAT: *see* **Lecithin:cholesterol acyltransferase**
LDL: *see* **Low density lipoprotein**
Lecithin:cholesterol acyltransferase
Activity, in hyperlipoproteinemic analbuminemic rats, effect of pravastatin 1719
Deficiency, in galactosamine-treated rats 581
Effect of apolipoprotein activators on specificity of 1601
Effect of HDL disks prepared with apoA-I variants on properties of 97
Lecithin:retinol acyltransferase: Ontogeny in rat small intestine 1521
Lens plasma membrane: Lipid composition of fractions 45
[^{13}C]Leucine: Use of in studies of kinetic parameters of apoB metabolism 1311
[^{3}H]Leucine: Use of in study of metabolic pathways of apoB 1823
Leukemia: Increased HMG-CoA reductase concentration and catalytic efficiency 1237
Leukemic cells: Generation of ethane during lipid peroxidation 79
Leukocytes: In vivo regulation of HMG-CoA reductase in 1237
Lignan: Sesamin, from sesame oil 629
Linolenic acid
Alternate pathways of metabolism 1265
Desaturation and elongation in cultured glioma cells 1265
Lipase, carboxyl ester: Human pancreas, cDNA cloning of 267
Lipase, hepatic: Rat, expression of in heterologous systems 963
Lipase, hormone-sensitive: mRNA, developmental regulation in rat adipose and steroidogenic tissues 1303
Lipid(s)
Loading by lipophorin 1789
Plasma, effect of dietary cholesterol on levels of 1281

Lipid accumulation: In arterial smooth muscle cells 115
Lipid composition
Of human bile, determination of 371
Of LDL, alterations induced by Cu^{2+} oxidation 1983
Of lens plasma membrane fractions enriched in fiber junctions 45
Of lipophorins 407
Of lipoproteins of hyperlipoproteinemic analbuminemic rats 1719
Of lysosomal multilamellar bodies of male mouse urine 157
Of mitochondrial membranes, modification by an unsaturated fatty acid 1025
Lipid peroxidation
Generation of ethane in neoplastic cells 79
In cellular membranes 197
Mitochondrial, effect of dietary lipid and vitamin E on, in the bile duct-ligated rat 1349
Role of, in inhibition of mononuclear cell proliferation by lipoproteins 775
Lipid profiles: Of archaebacteria 657
Lipid secretion: By HepG2 cells, differential effects of EPA and oleic acid 231
Lipid synthesis: By HepG2 cells, differential effects of EPA and oleic acid 231
Lipid-protein interaction: Discoidal complexes of apoA-I-CNBr fragments and DMPC 1253
Lipocytes: Cultured, rat liver, secretion of apoE by 107
Lipolysis
α2-Adrenergic control in hamster preadipocytes 1489
Regional variation in adipose tissue from lean and obese men 1625
Lipolytic activity: Of differentiating hamster preadipocytes 1489
Lipophorin
Analysis of structure 1781
Composition-structure relationship 407
Loading of lipid 1789
Role of as a reusable lipid shuttle 1789
Lipophorin, low density
Heterogeneity of particle size 417
Induced by adipokinetic hormone, characterization of 417
Lipopolysaccharide: Induction of IL-1β mRNA expression in mouse macrophages 1899
Lipoprotein(s)
Containing apoA-I, particle size distribution in coronary artery disease 383
Endosomal uptake of in rat liver 485
From a kindred heterozygous for apoB-54.8/apoB-100, characterization of 1001
In pinnipeds 1013
Inhibition of mononuclear cell proliferation by, role of lipid peroxidation 775
Mouse, effect of an atherogenic diet on 559
Nascent, from purified hepatocyte Golgi fractions 529
Plasma, effect of dietary cholesterol on levels of 1281
Plasma, in the preruminant calf 1429
Postprandial, S_f 100–400, abnormal clearance in IDDM 1133
Rapid on-line determination of cholesterol in, by HPGC 859
Secretion by rat hepatocytes, effect of monomethylethanolamine 1971
Serum levels, relationship with apoB and A-I/C-III genes 1477
Lipoprotein [a]
Buoyant density, relationship to apo[a] isoforms 679
Contribution of apo[a] phenotype to plasma concentration of 1919
Immunochemistry of 277
Levels in heterozygote subjects with FH 1513
Monoclonal antibodies that react with plasminogen 277
Plasma levels, influence of short-term dietary cholesterol and fat 1281
Lipoprotein composition: In CETP deficiency 21
Lipoprotein lipase
Distribution and source of, in mouse mammary gland 733
Expression in human subcutaneous adipose tissue regions 423
In lungs, spleen, and liver, distribution and synthesis 1877
mRNA, localization in lactating mammary tissue 733
Lipoprotein lipase, mammary: Regulation by plasma insulin 251
Lipoprotein oxidation: Cu^{2+}-mediated oxidation of dialyzed plasma 243
Lipoprotein particles: Containing apoA-I and apoB, characterization of 1587
Lipoprotein subfractions: From 200 μl of plasma or serum, measurement of triglyceride and cholesterol in 359
Lipoxygenase
Oxidation of LDL by 63
Role of in oxidation of LDL by mouse peritoneal macrophages 449
Liver cells, cultured: ApoE mRNA in 107
Lovastatin
Effects of on biliary lipid secretion and bile acid metabolism in humans 71
Effects on regulation of cholesterol biosynthesis in sitosterolemia 1941
Use of in studies of regulation of bile acid synthesis and biliary cholesterol secretion in humans 1143
Low density lipophorin
Heterogeneity of particle size 417
Induced by adipokinetic hormone, characterization of 417
Low density lipoprotein
Charge-modified, fractionation by FPLC 1359
Charge-modified, composition of 1359
Chemical composition of, in cynomolgus monkeys 305
Cholesterol, uptake and utilization in HepG2 cells 1657
Copper modification of 1359
Cynomolgus monkey, effect of dietary fish oil on properties of 305
De novo production of 1099
Effect of Cu^{2+}-mediated oxidation of dialyzed plasma on 243
Effect of oral D-α-tocopherol supplementation on resistance to oxidation 1325
Human, subspecies, interaction with the cellular LDL receptor 1741
Kinetic parameters of apoB in 1311
Labeled with ^{99m}Tc, receptor recognition and intracellular sequestration 1
Lipoxygenase-mediated transformation of to a cytotoxic complex 63
Modified, from atherosclerotic lesions 115
Oxidation of, by mouse peritoneal macrophages, role of lipoxygenase 449
Oxidation, test for susceptibility to 349
Oxidation-labile subfractions, isolated by ion-exchange chromatography 763
Oxidatively modified, uptake by atherosclerotic rabbit aorta 55
Oxidized by Cu^{2+}, modification by proteoglycans and glycosaminoglycans 1983
Oxidized, cytotoxic effects of on cultured endothleial cells 197
Oxidized, receptor, stimulation by activated platelets 1113
Plasma levels, influence of short term dietary cholesterol and fat 1281

Radiolabeling by seven methods, characterization of 173
Selective uptake of cholesteryl esters from 667
Self-aggregated, ultrastructural morphology 953
Size transformation of, induced by fatty acids 903
Subfractions, effect of dietary fat on binding to arterial proteoglycans 2001
Subfractions, lipid composition of 763
Triglyceride-rich, with cholesteryl esters of intracellular origin, association with CETP deficiency 21
Turnover of 1099
Uptake and degradation in atherosclerotic rabbit aorta 55
Uptake by HepG2 cells, effect of macrophage-derived factors 1889
Vitamin E content, effect of oral supplementation of D-α-tocopherol 1325
Low density lipoprotein, acetylated
Receptor in macrophages, suppression of expression of by an inhibitor of protein kinase C 1699
Regulation of LDL receptor and apoE gene expression in THP-1 monocytes by 507
Uptake and degradation in atherosclerotic rabbit aorta 55
Low density lipoprotein heterogeneity: Role of in reduced binding of LDL to arterial proteoglycans in cynomolgus monkeys 2001
Low density lipoprotein, oxidized: Inhibition of IL-1β mRNA expression 1899
Low density lipoprotein, radiolabeled: Isolated from fresh and frozen plasma, partial characterization of 173
Low density lipoprotein receptor
Expression in macrophages, regulation by sterol 507
Hepatic mRNA levels in baboons, effect of dietary lipid 1929
Interaction with discrete subspecies of human LDL 1741
Of HepG2 cells, effect of macrophage-derived factors on 1889
Recognition of ^{99m}Tc-labeled LDL 1
Low density lipoprotein scavenger receptor: Suppression of expression in macrophages, by a protein kinase C inhibitor 1699
LP-AI: Efflux of whole cell cholesterol to 1993
LP-AI/AII: Efflux of whole cell cholesterol to 1993
LpA-I: Metabolism of apoA-I contained in 1849
LpA-I,A-II: Metabolism of apoA-I contained in 1849
LPL: *see* **Lipoprotein lipase**
LPS: *see* **Lipopolysaccharide**
Lp[a]: *see* **Lipoprotein[a]**
LRAT: *See* **Lecithin:retinol acyltransferase** 1521
Lung surfactant: Composition and regulation of production and clearance 1539
Lymphoma: Increased HMG-CoA reductase concentration and catalytic efficiency 1237
[4,4,5,5-$^2H_4$]Lysine: Incorporation into human lipoproteins 1063
Lyso-PAF:acetyl-CoA acetyltransferase: Activity in the slug *Incilaria bilineata* 1795

M

Macrophages
Activity of oxidized-LDL receptor in 1113
Inhibition of protein kinase C, effect on expression of IL-1β and the LDL scavenger receptor 1699
Lung and spleen, synthesis of LPL in 1877
Mouse, molecular species of glycerophospholipids 1205
Mouse peritoneal, oxidation of LDL by, role of lipoxygenases 449
Mouse, regulation of secretion of apoE by HDL_3 783
Secretion of protein that up-regulates LDL receptors in HepG2 cells 1889
Mammary gland: Mouse, distribution and source of LPL in 733
Manduca sexta
Role of lipophorin as a reusable lipid shuttle 1781
Structure of lipophorin in 1781
Marsupials: Bile acids of 1417
Mass spectrometry: Of PAF derivatives 723
MCF-7 cells: Regulation of retinol uptake and esterification in, by exogenous fatty acids 809
Membrane(s)
Modification of hydrophobic domain 1025
Plasma, of endothelial cells, increase of cholesterol in by β-VLDL 1125
White fat cell, age-related changes in adrenergic receptors 191
Membrane fluidity: In mitochondrial membrane 1025
Menhaden oil: Fatty acid composition 1173
Metabolism: Of apoB, studied using a [^{3}H]leucine tracer 1823
Methanogens: Lipid profile of 659
Methionine sulfoxide: Site-specific formation, basis of chromatographic heterogeneity of apoA-I, C-II, and C-III 1465
7-Methyl norchenodeoxycholic acid: Chemical synthesis and hepatic biotransformation 1729
7-Methyl-norCDCA
see **3α,7α-Dihydroxy-7β-methyl-24-nor-5β-cholan-23-oic acid**
see **7-Methyl norchenodeoxycholic acid**
Mevalonate pathway: Products of, in FH, effects of pravastatin and cholestyramine 935
Mevalonic acid: Plasma quantitation using gas chromatography and electron capture mass spectrometry 1057
Micellar cholesterol: Regulation of HMG-CoA reductase by, in CaCo-2 cells 1811
Micro-enzymatic measurements: Of cholesterol and triglyceride in lipoproteins from 200 μl of plasma or serum 359
Microsomal membranes: Rat liver, HMG-CoA reductase phosphatase activity in 1391
Microsomal monooxygenase: Inhibition of, effect on metabolism of PDMD 713
Microsomal retinol reductase: Ontogeny in rat small intestine 1521
Milk, human: LPL in, effect of fasting, insulin, and glucose 251
Mitochondria: Lipid peroxidation in, effect of dietary lipid and vitamin E 1349
Mitochondrial membranes: Modification of hydrophobic domain 1025
Model bile
Composition of 1501
Distribution of lecithin molecular species between mixed micelles and vesicles 1291
Molecular species
Of glycerophospholipids from mouse macrophages 1205
Of macrophage glycerophospholipids, influence of n-3 fatty acids on 1205
Of rat retina phospholipids, effect of dietary fat on 2009
2-Monoacylglycerol pathway: Of acylglycerol formation 1173
Monoclonal antibodies: In epitope mapping of apoA-I 595
Monocytic leukemia cells (THP-1): Formation of foam cells in response to culture with lipoproteins 35
Monolayers, simulated: Packing of diacylglycerols in, effect of acyl chain unsaturation 1645
Monomethylethanolamine: Effect on secretion of lipoproteins by cultured rat hepatocytes 1971

Mononuclear cells: Role of lipid peroxidation on inhibition of proliferation of by lipoproteins 775
Mononuclear leukocytes: Regulation of cholesterol biosynthesis in, in sitosterolemia 1941
Monosialogangliosides: Isolation from bovine brain gangliosides 1712
Morphological differentiation: Of preadipocyte cells 569
Mouse strains: Inbred, effect of an atherogenic diet on lipoproteins 559
mRNA
ApoD, expression in adrenal gland, male genital tissues, and central nervous system 1959
ApoE, in cultured liver cells 107
Guinea pig LPL, in spleen, lung, and liver 1877
Hepatic levels of apolipoproteins, LDL receptor, and HMG-CoA synthase in baboons 1929
Hormone-sensitive lipase, developmental regulation in steroidogenic tissues 1303
IL-1β, expression of in mouse macrophages, inhibition by oxidized LDL 1899
Levels of rabbit hepatic lipase 1333
Of CRABP, levels in rat tissues 1195
Of LPL in human subcutaneous adipose tissue, correlation with LPL activity 423
MS: *see* **Mass spectrometry**
Multicompartmental model
Determination of kinetic parameters of apoB metabolism by 1311
To describe apoA-I metabolism 801
Multilamellar bodies: Lysosomal, of male mouse urine, lipid composition of 157
Multivesicular bodies: From livers of rats injected with β-VLDL 485

N

NBD: *see* **4-Nitrobenzo-2-oxa-1,3-diazol derivatives**
Nephrotic syndrome
In rats, dyslipoproteinemia in 1675
Spontaneous chronic, in an inbred rat strain 1675
Neutral lipids
Preparative separation of by Ca-TLC 877
Synthesis in *Schistosoma mansoni* 703
Neutral sterols: Micro-method for quantification of fecal excretion of 1861
Neutrophil activation: Decreased by apoA-I 1911
4-Nitrobenzo-2-oxa-1,3-diazol derivatives: Of bile salts, synthesis and properties of 1755
Nucleation time: Of cholesterol crystals in bile 215
Nucleotide sequence
Of a sea lion apoE cDNA clone 1013
Of apoB-54.8 mutant clone 1001
Of human pancreas carboxyl ester lipase 267
Of rabbit hepatic lipase cDNA 1333
Of rat apoC-II 1805
Of rat CRABP cDNA 1195
Of third exon of the apoE gene 613

O

Obesity: Regional variation in adipose tissue lipolysis 1625
Oleic acid: And eicosapentaenoic acid, differential effects of on lipid metabolism in HepG2 cells 231
Oncostatin M: Effect of LDL receptor activity in HepG2 cells 1889
Ontogeny
Of acetyl-CoA carboxylase of chick embryo brain 1667
Of intestinal LRAT activity 1521
Oxidation: Of LDL, resistance to, effect of oral D-α-tocopherol 1325
Oxidation, Cu^{2+}-catalyzed: Of LDL, modification by proteoglycans and glycosaminoglycans 1983
Oxidation, Cu^{2+}-mediated: Of dialyzed plasma, effects on LDL, HDL, and CETP 243
Oxidative modification
Of LDL 349
Of LDL fraction with Cu^{2+} 763
Oxidized low density lipoprotein: Receptor, stimulation by activated platelets 1113
Oxidosqualene cyclase: Inhibition by TMD in HepG2 cells 1657
Oxygen, reactive: Generated by stimulated mononuclear cells, alteration of lipoproteins by 775
Oxygenase, fatty acid: From psoriatic scales 341

P

P45014dm: *See* **Lanosterol 14α-demethylase**
PAF: *see* **Platelet-activating factor**
***Pagrosomus major*:** The red seabream, bile salts of 1619
PAP: *See* **Phosphatidate phosphohydrolase**
PC: *see* **Phosphatidylcholine**
PDMP: *see* **1-Phenyl-2-decanoylamino-3-morpholino-1-propanol**
Peptidoleukotriene: Synthesis in macrophages, influence of n-3 fatty acids 1205
Perfused liver: Use of [^{15}N]glycine to measure apoB synthesis in 2019
Permeability barrier function: Role in regulation of epidermal sphingolipid synthesis 1151
Peroxisomes: Fractions of, metabolism of acetyl-CoA by 993
Phenotypes: Of apo[a], contribution to plasma Lp[a] concentrations 1919
Phenotyping: Rapid, of apoE 880
1-Phenyl-2-decanoylamino-3-morpholino-1-propanol: Synthesis and metabolism of 713
Phosphatidate phosphohydrolase: Rat liver cytosolic, stimulation and inhibition of activity, by phospholipids 1869
Phosphatidic acid pathway: Of acylglycerol formation 1173
Phosphatidylcholine
Hepatic and biliary, formation of using different fatty acids 985
Plasma, composition of in apoA-I/C-III deficiency 1601
Synthesis in *Schistosoma mansoni* 703
Phosphatidylcholine ethers: HDL labeled with, effects of hydrophobicity on turnover 793
Phospholipase A_2: Treatment of lipophorin with 1781
Phospholipid(s)
Cardiac myocyte, turnover of fatty acids in 1159
Localization in lipophorin 1781
Rat retina, metabolism of docosahexaenoic acid in 2009
Role of in cytotoxic action of HDL on trypanosomes 639
Role of, in lipophorin 1781
Stimulation and inhibition of rat liver PAP activity by 1869
Phospholipid structures: Major cholesterol carriers in bile 1539
Phospholipid synthesis
In HepG2 cells, differential effects of EPA and oleic acid 231
In *Schistosoma mansoni* 703

Photoaffinity labeling
Of bile salts 1769
Of proteins with modified fatty acid salts 843
Photolabile derivatives: Of modified fatty acid salts, synthesis of 843
Pinnipeds: Lipoproteins in 1013
Placental trophoblast: Cultured, progesterone secretion 1073
Planar xanthoma: In familial apoA-I deficiency 1587
Plant sterols: Increased levels of in serum and bile in CTX 223
Plasma membrane
Of endothelial cells, increase of cholesterol in by β-VLDL 1125
Lens, lipid composition of fractions 45
Plasma membrane sphingomyelin: And regulation of MHG-CoA reductase and cholesterol synthesis in cell culture 125
Plasmalogens: Cardiac myocyte, differential turnover of polyunsaturated fatty acids in 1159
Plasminogen: Reaction with monoclonal antibodies to human Lp[a] 277
Platelet(s)
Activated, secretion of a factor that stimulates oxidized LDL receptor activity in macrophages 1113
Cultured with THP-1 cells 35
Platelet-activating factor
Derivatization of for GLC–MS 723
Production in slugs 1795
Platelet-activating factor acetylhydrolase: Activity in the slug *Incilaria bilineata* 1795
Polyamines: Role in regulation of adipose cell differentiation 1449
Polymerase chain reaction
Amplification of apoA-I gene 1275
Genotyping of apoE using allele-specific nucleotide primers 183
In genotyping of apoA-IV, use of a tailored primer 545
Polymorphism
In the human apoB gene 137
Of apo[a] 1919
Polypeptide: Bile salt-binding 1769
Polyunsaturated fatty acids
Differential turnover in cardiac myocyte plasmalogen and diacylglycerophospholipids 1159
Leukemic cells enriched in, generation of ethane during lipid peroxidation 79
Pravastatin
Effect on plasma lipoproteins and LCAT activity in hyperlipoproteinemic analbuminemic rats 1719
Effects of on products of the mevalonate pathway in FH 935
Preadipocytes
Differentiation, control of by glucocorticoids 569
Hamster, differentiation of, expression of α2-adrenergic-mediated antilipolytic effect 1489
Preadipose cells
Effect of dexamethasone and fatty acids on aP2 gene expression 1457
Effect of fatty acids on aP2 gene expression 1449
Preruminant calf: Intestinal lymph and plasma lipoproteins in 1429
Probucol
Antioxidant effects of 197
Prevention of oxidative injury to endothelial cells by 197
Protective effect on LDL in presence of cultured cells 1359
Progesterone secretion: In cultured placental trophoblast, mechanism of HDL_2 stimulation 1073
Proline-rich repeat unit: In human pancreas carboxyl ester lipase 267
Protein kinase C: Inhibition of in macrophages by MDL 29,152 1699
Protein phosphorylation: HMG-CoA reductase 1391
Proteins, bile: Inhibition and promotion of cholesterol crystallization by 695
Proteoglycan(s)
Arterial, binding of LDL subfractions to, effect of dietary fish oil 2001
Modification of Cu^{2+}-catalyzed oxidation of LDL by 1983
Psoriatic skin scales: Stereospecificity of products of fatty acid oxygenase 341

R

RBP: *see* **Retinol-binding protein**
Receptor(s)
Adrenergic α1, α2, and β of rat white fat cell membranes 191
Low density lipoprotein, interaction with discrete subspecies of human LDL 1741
Receptor binding activity: Of apoE, importance of position of positive charge 521
Regulation
In vivo, of human leukocyte HMG-CoA reductase 1237
Of adipose cell differentiation 1449
Of adipose cell regulation 1457
Of apoE secretion in mouse macrophages 783
Of bile acid synthesis and biliary cholesterol secretion in humans 1143
Of CRABP gene expression in the rat 1195
Of epidermal sphingolipid synthesis 1151
Of hepatic apoB synthesis 941
Of metabolism of the *sn*-2 fatty acid of diacyl glycerophospholipids 1159
Of retinol uptake and esterification in MCF-7 and HepG2 cells 809
Reproduction: In WHHL rabbits 1089
Restriction isotyping: Of human apoA-IV 1529
Retina: Rat, recycling of docosahexaenoic acid in 2009
Retinoic acid-binding protein, cellular
Localization in rat testis 1195
mRNA levels in rat tissues 1195
Retinoid-storing cells: Cultured, secretion of apoE by 107
Retinol: Uptake and esterification in MCF-7 and HepG2 cells 809
Retinol-binding protein, cellular
Immunolocalization of 1521
Ontogeny in rat small intestine 1521
Retinol binding protein-retinol complex: Uptake and esterification by MCF-7 cells 809
Retinol reductase, microsomal: Ontogeny in rat small intestine 1521
Retinol transport complex: Metabolism and secretion in acute renal failure 515
Retinyl ester hydrolase, acid: Microsomal, relationship to cholesteryl ester hydrolases 685
Retinyl ester hydrolase, neutral: Microsomal, relationship to cholesteryl ester hydrolase 685
Review article
Aliphatic 2,4-diketones 553
Structure and function of lamellar bodies 1539

S

***Schistosoma mansoni*:** Synthesis of phospholipids by 703
Sea lion: Lipoproteins in 1013

Serum lipids: Effect of fasting on concentration of 887
Sesame oil: Inhibition of cholesterol absorption and synthesis in rats by the lignan sesamin 629
Sesamin: Inhibition of cholesterol absorption and synthesis by, in rats 629
Short chain bile acids: Hepatic metabolism of 1949
Sitosterol
A marker for fecal flow and recovery 1861
Increased levels in serum and bile in CTX 223
Sitosterolemia: Regulation of cholesterol biosynthesis in 1941
Size transformation: Of IDL and LDL, induced by unesterified fatty acids 903
Skin: Hydrophobic protective barrier 1539
Smooth muscle cells
Aortic, modified LDL from 115
Cholesterol efflux from, to immunopurified HDL subfractions 1993
Sphingolipid: Synthesis, epidermal, regulation of by permeability barrier function 1151
Sphingomyelin: Plasma membrane, and regulation of HMG-CoA reductase and cholesterol synthesis in cell cultures 125
Sphingomyelin:cholesterol ratio: In plasma membranes 125
Sphingomyelinase: Inhibition of cholesterol synthesis in cell culture by 125
Stable isotopes
Incorporation of labeled amino acid into human lipoproteins 1063
Use of in determining kinetic parameters of apoB metabolism 1311
Steroidogenic tissues: Developmental regulation of hormone-sensitive lipase mRNA 1303
Sterol biosynthesis
Effects of P45014dm inhibitors on 893
Inhibition of, effect on LDL metabolism by HepG2 cells 1657
Sterol composition: Serum, in CTX 603
Sterol metabolism: Disturbances of, serum levels of 7-lathosterol and other cholesterol precursors 603
Sterol synthesis
Inhibitors of 1371
Inhibitors of 1215
Sterols, dietary: Restriction of, effect on regulation of cholesterol biosynthesis in sitosterolemia 1941
Sterols, neutral and acidic: Micro-method for quantification of fecal excretion of 1861
Stomach: Hydrophobic protective lining of 1539
Structural properties: Of HDL disks prepared with apoA-I variants 97
Suncus: Induction of fatty liver in, by fasting 887
Superovulation: Of WHHL rabbits 1089
Superoxide anion: Effect on lipoxygenase action on LDL 63
Superoxide dismutase: Effect of on modification of LDL by macrophages 449
Superoxide production: By neutrophils, decreased by apoa-I 1911

T

Tangier disease: Isolation and characterization of LP-A-II:B complex in VLDL 9
Taurine-conjugated bile salts: Study of hepatobiliary transport, using NBD-amino derivatives 1769
Taurochenodeoxycholate: Calcium binding by monosulfate esters of 621
TCDC: *see* **Taurochenodeoxycholate**
Technetium
Labeling of LDL with 173
LDL labeled with, binding parameters of 1
Testis, rat: Localization of CRABP in 1195
Thermoacidophiles: Lipid profile of 659
THP-1 cells: Response to culture with platelets 35
THP-1 cells: *see also* **Monocytic leukemia cells**
Thyroid status: Effect of on hepatic metabolism of apoA-I 395
TMD: *see* **4,4,10β-Trimethyl-*trans*-decal-3β-ol**
D-α-Tocopherol
Oral supplementation, effect on resistance of LDL to oxidation 1325
Oral supplementation, effect on vitamin E content of LDL 1325
Tracer kinetics: Of apoB labeled with [^{3}H]leucine in heterozygous FH 1823
Triacylglycerol lipase: Treatment of lipophorin with 1781
Triacylglycerols
Chylomicron, composition of *sn*-2 fatty acids 1173
Positional distribution of fatty acids 1173
***Trichosurus vulpecula* (Lesson):** A marsupial, hepatic formation of vulpecholic acid from chenodeoxycholic acid 1417
Triglyceride
In lipoproteins from 200 μl of plasma or serum, micro-enzymatic measurement of 359
Kinetics in hypertriglyceridemic subjects 743
Triglyceride-rich low density lipoprotein: Containing cholesteryl esters of intracellular origin, association with CETP deficiency 21
Triglycerides, serum: In children and adolescents, relationship with DNA polymorphism 1477
1α,3α,7α-Trihydroxy-5β-cholan-24-oic acid: Hepatic formation of, from chenodeoxycholic acid in a marsupial 1417
3β,7β,12α-Trihydroxy-5β-cholanic acid: Stereospecific synthesis and two-dimensional ^{1}H-NMR investigation of 1381
4,4,10β-Trimethyl-*trans*-decal-3β-ol: Inhibition of oxidosqualene cyclase by, in HepG2 cells 1657
Triterpene esterification: In rabbit and human tissues 1689
Triterpene esters: Formation in rabbit and human tissues 1689
Trophoblast: Cultured placental, progesterone secretion in 1073
Trypanosomes: Cytotoxic effect of HDL on 639
Turnover
Of free apoA-I and HDL apoA-I 867
Of HDL labeled with phosphatidylcholine ethers 793
Type V hyperlipidemia: Isolation and characterization of LP-A-II:B complex in VLDL 9

U

Ultracentrifugation, density gradient: of 200 μl of plasma or serum, measurement of triglyceride and cholesterol in lipoproteins 359
Ultrastructural morphology: Of self-aggregated LDL 953
Unesterified fatty acids
Dissociation of HDL precursors from apoB-containing lipoproteins in presence of 917
Induction of size transformation of IDL and LDL by 903

V

Very low density lipoprotein
ApoB-54.8 in 1001

Kinetic parameters of apoB in 1311
Kinetics of apoB and triglyceride in, in hypertriglyceridemia 743
LP-A-II:B complex form, in patients with Tangier disease and in patients with Type V hyperlipidemia 9
Of hepatocyte Golgi fractions, apolipoprotein composition 529
Secretion by rat hepatocytes, inhibition by N-monomethylethanolamine 1971
Turnover of 1099
β-Very low density lipoprotein: Effect of an endothelial cell plasma membrane cholesterol 1125
Vitamin A
Adsorption in the rat 1521
Homeostasis, role of the kidney 515
Vitamin E
Content of human LDL, effect of D-α-tocopherol supplementation 1325
Effect on uptake of LDL by atherosclerotic rabbit aorta 55
Protective effect on LDL in presence of cultured cells 1359
VLDL: *see* **Very low density lipoprotein**
Vulpecholic acid: Hepatic formation of, from chenodeoxycholic acid in a marsupial 1417

W

Watanabe heritable hyperlipidemic rabbits
Breeding of 1089
Superovulation of 1089
Control of variance in experimental studies of hyperlipidemia in 1089
WHHL: *see* **Watanabe heritable hyperlipidemic rabbit**
White fat cell membranes: Age-related changes in adrenergic receptors 191
White matter: Rabbit CNS, expression of apoD mRNA 1959

X

***Xenopus* oocytes**
Expression of rat hepatic lipase in 477
Processing of by the liver 485
